Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:

Species I: Figure 1 show a first embodiment.

Species II: Figure 2A shows an embodiment with motors (10) as a gas motor.

Species III: Figure 2B shows an embodiment with motors (10) as an electric motor.

Species IV: Figure 2C shows an embodiment with a control flow from an alternator (44) to an electric motor (41).

Species V: Figure 2D shows an embodiment with a control flow from an alternator (54) to a battery (56).

Species VI: Figures 3-4 shows another embodiment disclosed in paragraph [0034].

Species VII: Figure 5 shows and embodiment with track assembly (54).

Species VIII: Figure 6 shows and embodiment with track system (58).

Species IX: Figures 7 and 8 shows another embodiment disclosed in paragraph [0039].

Species X: Figures 9A and 9B show an embodiment for side frame track.

Species XI: Figures 10 and 11 show an embodiment with out interior wheels for a track assembly.

Species XII: Figure 12 shows an embodiment, as disclosed in paragraph [0052], with a modular unit 170

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims appear generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
